

SPARTAN RANGE

SPARTAN 12V/24V ELECTRIC WINCHES

in the winching industry, you usually get what you pay for. The lower the price, the poorer the quality. Very rarely is a new product brought to the market that is the exception to this rule, giving you far more features & value than the price would imply.

Warrior Winches are delighted to announce the arrival of the Spartan Series, Tough, Strong and ready for a Battle, these Winches really will challenge all before them. We have reluctantly termed them as 'entry level', however this describes the price point, not the performance. We really believe these to be the best value for money Winches around, a lower price does not mean that we have had to compromise the core values integral to a good winch, such as reliability and durability.

Available in 8000lb, 9500lb, & 12000lb capacity there is a model for every leisure application. With great performance, outstanding features included as standard, & backed by the Warrior Winches un-rivalled limited Lifetime Warranty, this should make a Spartan the first choice for all serious enthusiasts.
